Announcement.

AUCTION SALE OF INSECTS.

THE NEW YORK ENTOMOLOGICAL SOCIETY for the past few years has held regular auction sales of insects for the benefit of the JOURNAL. These sales have proven not only of value to the members of the Society, but also of great assistance towards defraying the cost of publishing the JOURNAL. In order to give all parties not residing in New York, or those who cannot attend the sales, a chance to purchase, it has been decided to publish from time to time a list of the rarer species on hand, so as to enable interested parties to send in their bids. The following is a list of the species now on hand.
